🕒 Profile

I am Caroline, and I have an affinity with research and much enthusiasm for visual art & design. As a doctor in astrophysics, analytical thinking and problem solving is common practice to me. Conscientious at heart and with a good eye for detail, I strive to achieve high-quality results. And I always combine my strong sense for structure with a love for the playful and creative!

🕒 Experience

09/2016 - 12/2016 POSTDOCTORAL RESEARCHER (until 31/12/2016)

Kapteyn Institute, University of Groningen (NL)

03/2013 - 09/2016 PHD IN ASTRONOMY (defended on 17/10/2016)

Joint degree / Kapteyn Institute, University of Groningen (NL)
& Institut für Astrophysik, Georg-August Universität Göttingen (DE)

2010 - 2013 FREELANCE TRANSLATOR for DIPS Belgium BVBA

Patents and technical documents, EN → NL & NL → EN

🕒 Education

2010 - 2013 MASTER OF SCIENCE IN ASTRONOMY (cum laude, avg. 88%)

Kapteyn Institute, University of Groningen, The Netherlands

2007 - 2010 BACHELOR OF PHYSICS (great distinction, avg. 81%)

University of Antwerp, Belgium

🕒 Skills

Solid background in mathematics, physics and astronomy, with specialization in computational astrophysics. Extensive experience with data visualisation/graphs in Python, document formatting in LaTeX, and e.g. poster presentations in Illustrator & Photoshop.
